

BBF/BBS Back-boxes

Ring-Master back boxes are available in surface (BBS) and flush (BBF) versions. All back-boxes are fabricated from 18 gauge (.047") Cold Rolled Steel. Construction is spot welded with 1/2" knockouts for wiring. All back-boxes have station mounting holes pre-drilled and are supplied with screws and tinnerman fasteners. Flush back-boxes have mounting tabs for stud mounting. Surface back-boxes have powder-coated baked enamel finish.

Flush Mount
